

HA Industries, Inc.

CAD DATA TRANSFER

Information

Type of Files

In general, ZIP these files for transfer.

HA uses SolidWorks and SolidEdge

RFQs: We prefer a 2-D drawing with tolerances (can be an electronic file or a hard copy).

A 3-D model is always helpful and complements quoting to a 2-D toleranced drawing.

2-D Drawings

SolidWorks (.slddrw)

SolidEdge (.dft)

AutoCAD (.dwg) or DXF (.dxf)

Adobe Acrobat (.pdf)

3-D Drawings

SolidWorks model (.sldprt)(.sldasm)

SolidEdge model (.part)(.asm)

STEP (Solid, from non Pro/E system) (.stp)(.step)

Parasolid (.x_t)(.x_b)

Transfer Methods

Use the form on this page to upload your files directly to us.

E-mail, as an attachment to a message

Send to: CADDATA@HA-INDUSTRIES.COM

HA Industries can retrieve from your FTP (Web) site.

We need password, directory, filename, etc.

You need to let us know when the file will be available.

These methods are available for transfer of computer files electronically to HA Industries.

In every case, we need a clear understanding of why you are sending the file, and what you want HA Industries to do. Suppress, ZIP, etc. per above suggestions.

Call us at [586-939-0550](tel:586-939-0550) if you have any questions.

5510 Gatewood Dr. Sterling Heights, MI 48310 - USA
